

Cut pattern Volvo PV 444 A-model

This is a cut pattern made to help you use the size of the cloths in the best way. If you have an early interior (up to chassi no. 2000) you should be extra careful when you measure the cloth you use. The parts "Q" are not green but white in the early interior. All measures in cm.

Cloth beige 5,5 meter / car

Cloth green 2,5 meter / car

Vinyl green 1 meter / car

We don't have any cut pattern for the vinyl but you need about 1 meter.
